

# Join us for a FREE Community Night Hike!

**Sunday, Oct. 23**  
**6:00 - 8:00 PM**

Discover the magic of forests at night. Under a blanket of stars and a nearly full moon you will explore how to find your animal neighbors.

This is a perfect excursion for all experience levels, including children.

This hike is led by Dr. Lauren Esposito from the California Academy of Sciences, who study SXM's insects, spiders and scorpions.
